Scarlet Flowered FLAME VIOLET

A Thrilling NEW HOUSE PLANT

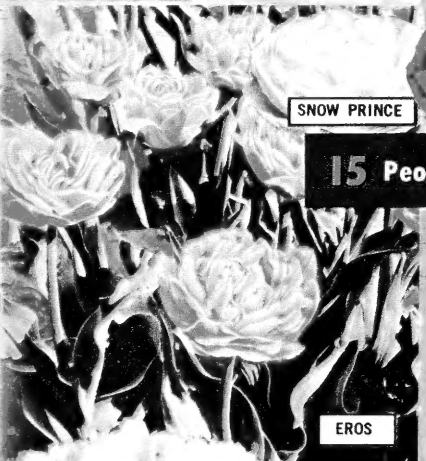

Flame Violet (Episcia Coccinea) grows and looks like an African Violet; in fact, it is a close cousin, and by long odds the brightest member of the family. Scarlet flowers contrast vividly with gorgeous, thick, plush-like leaves of deep bronze-green veined emerald green.

Flame Violet is easy to grow. Just give it the same care you give African Violets. Don't let the soil get too dry. Keep it warm (not below 65°) and give it plenty of light but no direct sunshine. Growing instructions sent with each plant.

2N292—1.98 each; 3 for 5.40, postpaid.

BIG BLOSSOMS ARE A TRUE RED

This is an actual-size photograph of a Flame Violet blossom. Each delicately fringed petal is brilliant scarlet... a flaming red. These exquisite flowers make a striking contrast to the rich bronze and green foliage.

Crimson King

Reddest of all MAPLES

A4208—This new French hybrid of the crimson-leaved, hardy maple tree (covered by Plant Patent #735) is the most showy of all trees in foliage. In early spring, the young leaves are a brilliant, fiery crimson. They continue this bright color until well along in the summer, when the upper side of the leaves deepen to a rich black-red tinted green, with undersides of green. This is the reddest of all red maples, including Schwedler's. Never grows more than about 30 feet tall. 3 to 5 ft. size, 4.29 each, ppd.

Removing blossoms from tulip plants so strength will go to bulbs, not seed. Photo was sent to us from Holland by our Dutch grower.

DARWIN TULIPS

MOST POPULAR OF ALL TULIPS

Darwins have long been the most popular of all tulips, probably because of their bright, cheerful colors and because their stems are just about the right length for all purposes (about 2 feet in a normal season). We have tried to choose for you the 12 very best of all Darwin varieties—not the most expensive but the best. All these bulbs are 11 to 12 centimeter size, and all are imported from Holland.

Please do not order less than 3 bulbs unless a single bulb price is listed. All tulips are shipped postpaid.

RED EMPEROR

The Most Brilliant Tulip in the World—and the Largest!
B6116—This tulip has everything. It is the earliest to bloom, has the most brilliant color, and is the largest in size of all the tulips.

If we could grow just one tulip, this would be it. If you have grown them, you know. Plant them on each side of the front steps, or a whole bed of them. You'll really have something to show. People will see them from a block away. **3 for 70c; 6 for 1.20; 12 for 2.15; 25 for 4.29, postpaid.**

BUNCH FLOWERED TULIP

"ODETTE"
A Brand New Yellow
Produces 2 to 5 Blossoms from Every Stem!
B6029—ODETTE. A brand new beauty from Holland. Its golden red-flecked blooms, which are borne in clusters, are a gorgeous sight to behold. Why not be one of the first to flower Odetta in the United States? **30c each; 3 for 75c; 12 for 2.40; 25 for 4.45, ppd.**
B6030—FUSILIER. Brilliant scarlet. Because of heavy demand last year for this fine variety, the stock was depleted and the supply this year is very low. Order early. **50c each; 3 for 1.30; 6 for 2.20, ppd.**

Henry Field's Famous RAINBOW COLLECTION of DARWIN TULIPS

15 ASSORTED BULBS for only **\$1.00** POST PAID NO. B7062X

Large Bulbs—Lots of Them—All Named Varieties

We have always figured it takes plenty of tulips to make a good show so we try to have a real reasonable offer, particularly for the folks who need it—all the rest of you are welcome, too.

For many years Henry Field's "Rainbow Tulip Collection" has been famous. It's a lot of bulbs, good bulbs and good varieties, for only 1.00, postpaid.

Now these aren't little bulbs, but big ones—10 to 11 centimeter size. In plain English, that's about 4" around. And they aren't just any old mixed bulbs swept up off the floor or out of the corners, or left-overs. We buy 20 named varieties of the finest Darwin tulips and mix them right here in the seed house. Drop in at bulb time and we'll show you.

If you want these bulbs, better order early because we usually sell out quick on this collection.

1 collection (15 bulbs) for 1.00; 2 collections (30 bulbs) for 1.95; 6 collections (90 bulbs) 5.50, postpaid.

GIANT RAINBOW COLLECTION

B7065X—Here is a special bargain in the GIANT-sized bulbs. It is made up of good named varieties that you will be proud to have growing in your yard. Your neighbors will admire them, and, if they know anything about tulips, they will recognize their quality. These bulbs will produce amazingly large flowers next spring. All colors. We mix these ourselves.

1 collection (10 bulbs) 98c; 2 collections (20 bulbs), 1.89; 5 collections (50 bulbs), 4.35; 10 collections (100 bulbs), 7.98, postpaid.

NAMED VARIETIES BARGAIN

BREEDER TULIPS

Longer Stems—Darker Colors

Breeder Tulips are different in two ways:

- (1) They have longer stems, up to 3½ ft. in height.
- (2) Their colors are richer and darker.

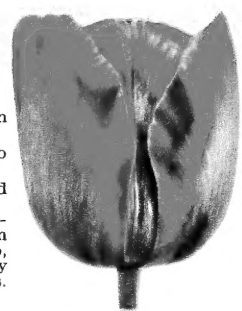

This makes them particularly suitable for the back of the row, or in the center of the bed. Their deep, rich, bold colors accent the beauty of the lighter, brighter colored tulips. Also fine planted alone.

Named Varieties Collection

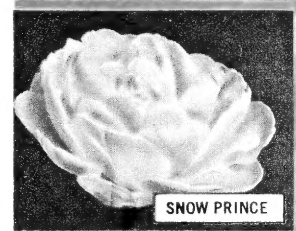

B7000X—2 each of 6 leading named varieties of Breeder Tulips. 12 bulbs in all. Labeled. Only 1.69, ppd.

CHRYSANTHEMUMS

Chrysanthemums are among the best of all perennials, being easy to grow, hardy, free-blooming, colorful and beautiful. Normally bloom from early Sept. until severe frost. Be sure to mulch well the first winter.

B1418—GOLDEN SUNSET. A marvelous variety with huge 4", fully double flowers of burnished copper with a ruby red center. Rather low, very bushy and completely covered with flowers. 49c; 3 for 1.29, ppd.

B1402—CECIL BEED. A fine, new, bright lavender-pink with the tips of the petals touched with gold. Fully double flowers 2½" across produced in abundance on long stems. A really fine Mum. 49c each; 3 for 1.29, ppd.

B1443—PINK OPAL. (Kraus.) A gorgeous 1951

introduction of pale Persian rose overlaid with cream tints. Large, fully double flowers measuring as much as 4" across. A beautiful Mum. 69c each; 3 for 1.69, ppd.

B1435—MOONLIGHT. (U. of Minn.) Fully double, solid blooms of pale moonlight yellow shading deeper at the center. Flowers 2" across with broad petals of fine texture. Plants 2 to 2½" tall. 59c each; 3 for 1.59, ppd.

B1452—SCARLET CRIMSON. Fine, large, double crimson, bordering on scarlet. One of the best of its color. Fully double flowers are 3" across and borne in great numbers on a medium-high bushy plant. 49c each; 3 for 1.29, ppd.

B1461—TAPESTRY. (Bristol.) A new combination of gorgeous shading. Opens gleaming rich pink, slowly softening to ashes-of-roses with golden flush.

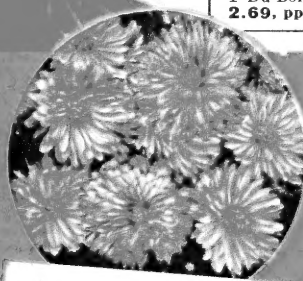

Flowers fully double and 3" across. Blooms early in Sept. 69c each; 3 for 1.89, ppd.

B1400—BONFIRE. Brilliant, solid double pompon flowers 1½ to 2" across borne in masses on tall stems. Rather late blooming. 59c each; 3 for 1.59, ppd.

B1429—LEE POWELL. (Kraus.) Another new Mum. Huge 4½" flowers like great masses of flinty Chinese yellow down. Stems long and fine for cutting. Good grower. Mum of the year for 1951. 69c each; 3 for 1.89, ppd.

Cut Flower Collection

B3141X—4 of the best Mums for cut flowers: 1 Lee Powell, 1 Cecil Beed, 1 Pink Opal, 1 Huntsman. All 4 1.98, ppd.

FUCHSIA FAIRY CHRYSANTHEMUM

B1419—A mass of 1" flat, fully double, fuchsia-colored flowers. This little mum makes a plant 2' across and about as high, that is literally loaded down with blooms. Because of its attractive color and profusion of bloom, it is one of the best varieties we offer. 59c each; 3 for 1.59, ppd.

5 NEW Large-Flowered CHRYSANTHEMUMS

B1427—HUNTSMAN (Bristol). One of the most brilliant mums we grow. Fiery red flowers about 2½ to 3". Solid double. Fine long stems for cutting. 69c each; 3 for 1.89, ppd.

B1470—WHITE CLOUD. Large 3" blooms of pure white with a lemon-yellow center. Petals broad and attractive. Plant grows 2' tall. 59c each; 3 for 1.59, ppd.

B1432—FLAXEN BEAUTY (Bristol). 4" blooms that look like huge flaxen-colored Cactus Dahlias. Beautifully blended with soft coral, gold and bronze. Plant grows low (20") and broad. 59c each; 3 for 1.59, ppd.

B1433—LUCKY 13. Brilliant dandelion-yellow. The plant is low-growing (18"), like a cushion Mum, and is loaded with 2" ball-shaped flowers. 79c each; 3 for 2.10, ppd.

B1421—DU-BON-A. Rich wine-purple. Very showy 4" flowers. Lots of large blooms on long stems. Bushy plant 2' high. 69c each; 3 for 1.89, ppd.

3 Mums for only 89c!

B3107X—1 each of Pink, Bronze and Yellow Cushion Mums—will give you thousands of blooms annually—all 3 for only 89c, ppd.

CUSHION MUMS

Bloom the first year after planting and grow to a size 3 feet across and 2 feet high, with flowers so solid and thick no foliage shows. Often a thousand blooms to one plant. You never miss a dozen cut daily for the table.

B1412—Pink Cushion. The bright pink that blooms early in the fall. 39c each; 3 for 98c, ppd.

B1416—Yellow Cushion. A very early golden yellow. 39c each; 3 for 98c, ppd.

B1414—Red Cushion. The bright red pompon. First red to bloom. 39c each; 3 for 98c, ppd.

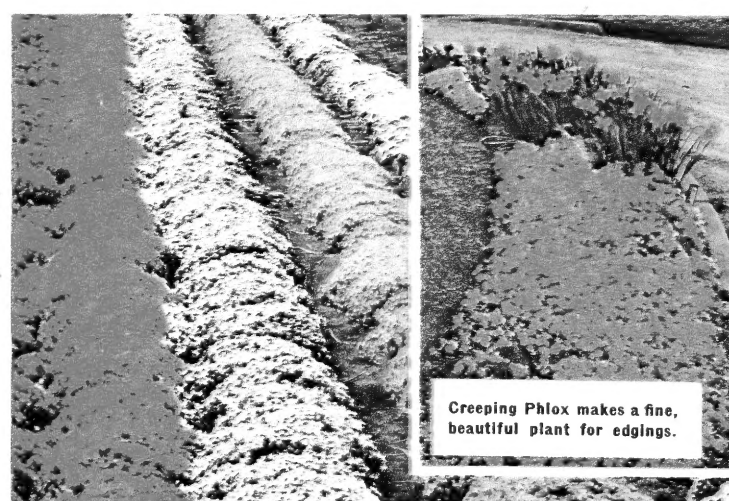

B1415—White Cushion. Opens palest pink, turns almost immediately to pure white. 39c each; 3 for 98c, ppd.

B1411—Bronze Cushion. The best double bronze cushion. Early flowering. 39c each; 3 for 98c, ppd.

B1413—Purple Cushion. Brilliant royal purple. New and showy. Blooms a little later than the others. 49c each; 3 for 1.29, ppd.

Rainbow Cushion Mum Collection

B3106X—1 each of the 6 colorful Cushion Mums pictured. All 6 for only 1.98, ppd.
FREE GIFT: 1 Cushion Mum "Brighter Days"—a clear, pale yellow.

Creeping Phlox makes a fine, beautiful plant for edgings.

Creeping PHLOX (Phlox Subulata) sometimes called Moss Pink

Our picture shows them growing in rows in our nursery grounds but they make beautiful and useful edgings for perennials (see smaller picture at upper right), and are fine as bank binders where there is often a wash. Do well in hot and rather dry locations; thrive in full sun or partial shade. Have masses of moss-like foliage which stays green all winter. In spring, the low mound-like plants are covered with bright colored flowers.

B1673—Brilliant Red. The new, bright red.

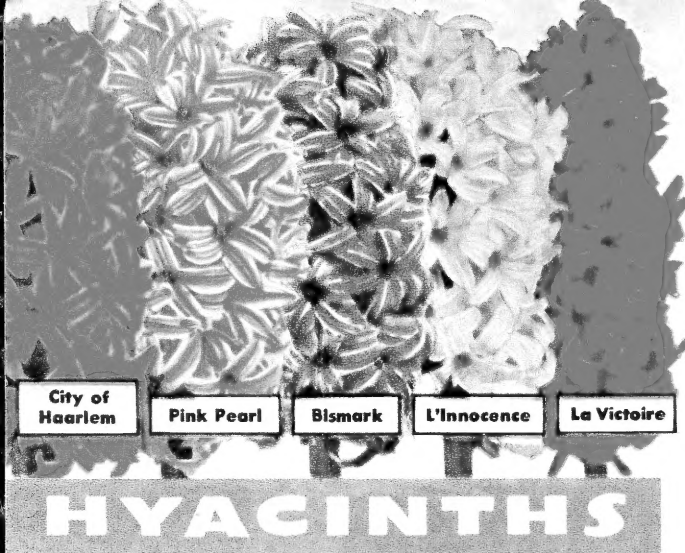

B1674—Emerald Gem. Emerald green foliage, deep pink flowers.

B1672—Blue Fairy. Reddish green foliage, soft blue flowers.

B1675—Snow Maiden. Dainty cut foliage, snowflake-like pure white flowers.

Prices on above: 39c each; 3 for 89c, ppd.

B3210X—1 each of the above 4 Creeping Phlox for only 1.29, ppd.

Have Spring Indoors THIS WINTER with Henry Field **HOUSE PLANTS**

When winter comes, and all your outdoor flowers are gone, then you are doubly grateful for house plants with their green foliage and cheerful flowers to brighten up your house.

And it is so easy to have cheerful house plants. The important thing is to start with good plants and the right varieties. We at Henry Field's grow only the better varieties, shipped to you out of 2 1/4" pots unless otherwise specified. They are healthy, husky, young plants, free of disease, that will do well for you.

Easy-to-follow instructions go with each plant.

ALL HOUSE PLANTS ARE SHIPPED POSTPAID

4062—Potting Soil. Contains Iowa loam soil with added humus, nitrogen, phosphorus and potash, plus vitamins B1 and B2, plus Rootone for stimulating root growth. 1 gal. enough for 10 to 12 4" flower pots. Not essential for growing house plants but will help if your own soil is weak. 1/2 gal. 1.10; 1 gal. 1.60, postpaid.

Scarlet Flowered **FLAME VIOLET**

2N291—Flame Violet is the registered trade mark name for *Episcia Coccinea*, a close cousin of the African Violet. However, unlike any African Violet, its blossoms are a true scarlet red. They are breathtakingly beautiful against the broad, thick, plush-like leaves of deep bronze-green, with veins of emerald green. Its care is simple—just treat it like your African Violets. 1.98 each; 3 for 5.40.

Large, True Red Blossoms

The blossoms actually are a little larger than this picture. Each petal is delicately fringed, and of a brilliant scarlet color... a flaming red.

**BABY TEARS
VINE**

2N418—Has an abundance of tiny, round, neat leaves of brilliant green which make a beautiful cascade down the sides of whatever the plant grows in.

Thrives under ordinary house conditions as long as it has sunshine. And, during summer, you can plant it outside in window or porch boxes. 49c each; 3 for 1.39.

SILVER THREADS

Variegated PEPEROMIA

PRAYER PLANT

PHILODENDRON

These four "No Sunshine" House Plants thrive in those dark corners that get little or no sunshine. Of course they do well in well lighted rooms too, but not in direct sunshine:

2N420—SILVER THREADS (Fittonia). Bright green leaves netted with silvery-white veins. 75c each; 3 for 1.98.

PEPEROMIA. Ideal for coffee or end table, or shaded window. **2N417—Variegated;** leaves green and yellow. **2N416—**leaves all deep green. Both 39c each; 3 for 98c.

2N423—PRAYER PLANT (Marantha).

Large, rounded leaves of clear blue-green spread with brown spots. In the evening, it lifts its branches, bringing the leaves together like hands held in prayer. 65c each; 3 for 1.79.

2N412—PHILODENDRON. Everyone knows and likes this trailing vine of a thousand uses. 39c each; 3 for 98c.

2N651X—"No Sunshine" Collection. 1 each of Silver Threads, Prayer Plant, Variegated Peperomia, and Philodendron—all 4 for only 1.89.

Winter HOUSE FERNS

2N264—FLUFFY RUFFLES. Decorative and very beautiful. 49c; 3 for 1.39.

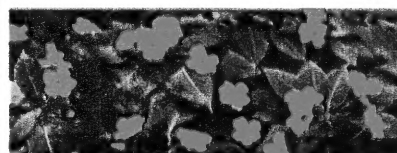

2N260—BOSTON FERN. Rich dark green leaves. Likes light, but no direct sunshine. 45c each; 3 for 1.29.

2N270—LACE FERN (*Asparagus Plumosus*). Foliage so fine it looks like green lace. A favorite for use in bouquets. 39c; 3 for 1.10.

2N265—GREEN RIPPLES. Much like popular Fluffy Ruffles but smaller. Foliage is beautifully rippled. An ideal pot plant; grows well for several years without repotting. 85c; 3 for 2.39.

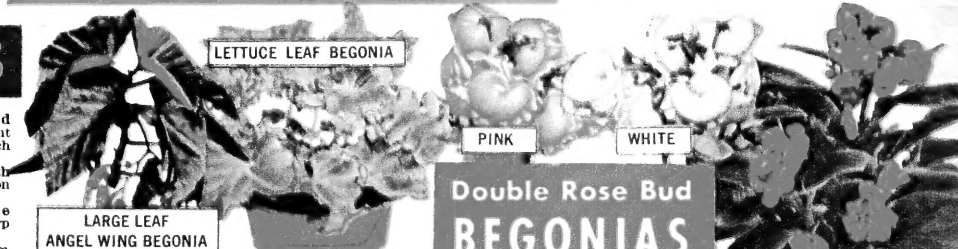

"Best 4" Ferns Bargain

2N523X—1 each of Fluffy Ruffles, Boston, Lace, and Green Ripples—all 4 for only 1.98.

Everblooming SULTANAS (Impatiens)

Among the easiest to grow, and most free flowering, of all house plants. Bloom just about 12 months of the year. Grow well in outdoor garden in summer. **PRICES:** 49c each; 3 for 1.39; **2N453—White.** **2N451—Salmon.** **2N450—Red.** **2N452—Showy** variegated green and white leaves; showy red flowers. **2N535X—1 each of the four Sultanias for only 1.59.**

Nursery Stock for SOUTHERN FALL PLANTING

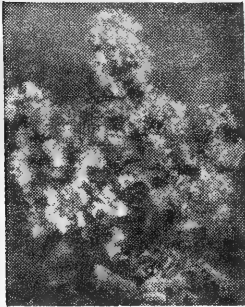

IMPORTANT NOTICE

This stock cannot be shipped until it becomes dormant — usually about the latter part of October.

We picked out these items especially for our customers living south of the Iowa-Missouri line. They can plant all these things in the fall. If you live north of that line, don't plant any of these

items this fall, excepting as recommended.

Now, if you people living north of Missouri insist on ordering stock not recommended for you, we can't help it. But remember, we told you so.

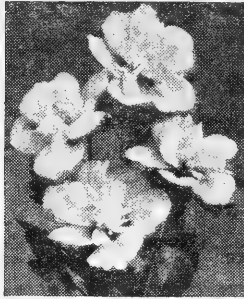

CRAPE MYRTLE

One of the most beautiful and striking of all shrubs. Grows tall and covered with giant clusters of bloom all summer. Perfectly hardy to central Missouri. Everyone south of there should plant this. Farther north tops die down, but if well protected will live over and bloom on new wood.

A1417—Red; A1415—Pink; A1416—Purple; Extra select plants: 59c each; 3 for 1.59, postpaid.

A2354X—Crape Myrtle Collection—1 each of Red, Pink and Purple. 1.45, postpaid.

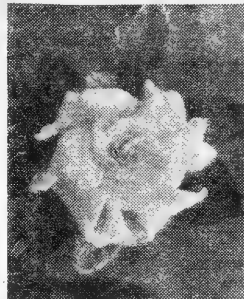

DOUBLE ALTHEA (Rose of Sharon)

This is the lovely Rose of Sharon. Grows 6 to 8 ft. tall and is upright and neat growing—ideal for lawn plantings. Loaded with blossoms in August and September when flowers are needed. Flowers look like big roses when open.

Red—A1401. Pink—A1400. White—A1402. Extra select plants: 49c each; 3 for 1.29; 5 for 1.98, ppd.

A2351X—ALTHEA COLLECTION. 1 each red, white, pink and blue. 1.79, ppd. **A1404—ALTHEA COELESTIA.** A beautiful china blue single Althea. Hardier than most varieties. Outstandingly showy. 79c each; 3 for 2.19, ppd.

GARDENIA

A1433—GARDENIA MYSTERY. Best garden variety. Almost continuous bloom the year around in mild climates and as a house plant farther north. Medium height, glossy, rich green foliage and huge, spectacular, fragrant, snow-white blossoms. Plant in partial shade or filtered sunlight. Hardy to 18 degrees above zero. Needs acid soil. (If necessary you can acidify your soil with Aluminum Sulphate listed below.) 12 to 18 in. plants. 98c each, ppd.

4059—Aluminum Sulphate. Makes soil acid. 1 lb. 39c; 3 lbs. 1.00, ppd.

MAGNOLIA SOULANGEANA

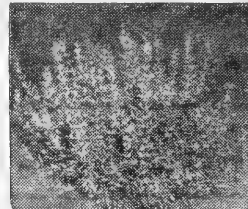

A4259—This is the popular hardy Magnolia; the one with great, pink, cup-shaped flowers. Seldom gets over 12 feet tall. Plant in a sheltered place. Folks south of Iowa should have no trouble but is doubtfully hardy from Iowa north. 2 to 3 ft. strong, root wrapped plants. 3.50 each, ppd.

European MOUNTAIN ASH

A4260—Foliage is a beautiful green. Light, smooth bark. A broad head, very compact, with gorgeous creamy white blossoms in spring, followed by clusters of red berries in later summer and fall. Grows rapidly. 4-5 ft. 1.98 each; 2 for 3.79, ppd.

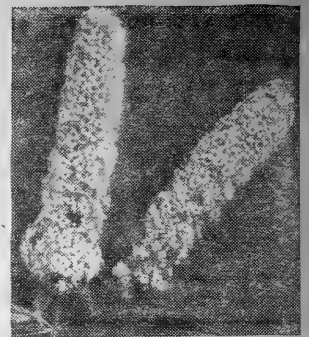

BLUE HYDRANGEA

A1441—Very hardy. Blooms on new wood as well as old. Flowers large, and on acid soil a beautiful blue. In ordinary soil flowers are pink. To make flowers blue, acidify soil by adding Aluminum Sulphate. To make pink, add agricultural lime. Prefers partial shade. Needs some protection in north. Vigorous plants. 1-year, field-grown plants, 98c each; 3 for 2.79, ppd.

BLUE MIST SPIREA

A1492—HARDY NEW BLUE MIST. A striking, low-growing shrub from Minnesota that blooms all summer and fall. Never gets over 3½ to 4 feet tall. Silvery green foliage and spirea-like flowers. One of the very few, blue-flowered shrubs. Often dies to the ground in winter in Iowa and north but that won't do any harm. No. 1, field-grown plants. 79c each; 3 for 2.19, ppd.

BUTTERFLY BUSHES

A1413—RED GLORY. Brand new, reddest of red. A strikingly brilliant plant. Flowers all summer. 75c each; 3 for 2.10; 12 for 7.50, ppd. **A1410—ILE DE FRANCE.** Loaded with bloom all summer long. Color deep reddish-purple. Extra select plants. 69c each; 3 for 1.89, ppd. **A1412—PINK CHARMING.** A really charming true pink. Extra select plants. 69c each; 3 for 1.89, ppd. **A1414—SNOWBANK.** Pure, soft, snow-white. Beautiful alone or in combination with bright colored varieties. 75c each; 3 for 2.10; 12 for 7.50, ppd. **A1409—MIDNIGHT BLUE.** Long spikes of deepest blue flowers with bright yellow eyes. 75c each; 3 for 2.10, ppd.

A2352X—BUTTERFLY BUSH COLLECTION. 1 each of Red Glory, Ile De France, Pink Charming, Midnight Blue for 2.49, ppd.

Grafted PECANS

The secret of getting grafted Pecan trees to live is to dig them with a long root. We do. Which is also why we have to ship them express. Plant at least 35 feet apart.

A4116—Giant Mahan. (Shown at right.) World's largest and most popular. True paper-shell. Highly productive and beautiful tree. 2 to 3 ft. trees. 3.25 each; 3 for 8.98. Exp. not ppd. **A4117—Stuart.** Well suited to all sections and soils. Bears regularly. Large, well filled nuts. Prices at right.

A4118—Success. One of the best varieties for midwest and eastern half of U. S. Beautifully shaped tree. Large, oblong nuts that are plump, sweet and of

medium-thin shell. Trees self-fertile. Prices below.

Playing with 3-lb. Cucumbers

"Dear Sirs: Our Early Surecrop Hybrid Cucumbers grew too heavy and large for our 18-month-old daughter to carry, although she had lots of fun rolling and pushing them. Here is a picture of Virginia and some of the three pounders."—Mrs. Kenneth E. Everett, 3213 North 72, Rt. 1, Bethel, Kans.

Free Wedding Roses

To persons sending in a picture of their recent wedding, Golden Wedding anniversary (50th), or Diamond Wedding anniversary (75th), we will send a free rose bush. Reason we do this is that we want our friends to have them as a sort of a personal gift from us. Just send a photograph and tell us all about it. If you don't have a picture, send an announcement, though we prefer a picture. Can't tell you what kind of rose we will send, but you can be sure it will be a good one. And we'll send it at the proper planting time.

Fall Planting Safe Until Soil Freezes Hard

When freezing temperatures begin, many folks who have not finished their planting wonder how much longer it can safely be done. The answer is: as long as the soil will crumble and can be packed properly about the bulbs and roots of plants.

It makes little difference to plants whether it is November or December so long as they can be properly planted. A crust of frost on the surface of the soil will not interfere with planting. In fact, such things as fruit and shade trees (not evergreens) and other heavy nursery stock can be planted right up to the time when the ground freezes solid.

Spring-Blooming Dutch Bulbs Must Be Planted in the Fall

Fall is the only time you can plant tulips, hyacinths, daffodils, crocus, scilla, grape hyacinths and chionodoxa. They spend the fall and winter making roots, then come up early in the spring.

When setting out the bulbs, plant them at the depth specified on the Bulb Planting Chart shown on page 13. You can either plant the bulbs in beds or individually in small holes. Some people put a little sand on the bottom of the bed or hole to allow good drainage. For safety's sake, you should dust the bulbs with sulphur or naphthalene flakes to drive away mice and moles. After planting, be sure to pack the earth down firmly so there won't be any air spaces around the bulbs.

It's a good idea to mulch the planted bulbs with lawn clippings, straw or rotted manure. After blooming next spring, allow the tops to die down naturally and leave the bulbs in the ground unless you wish to move them to a new place.

Lance Welling, St. Louis, Mo., Wins Jr. Seedsman Bicycle

We are happy to announce that the winner of the Schwinn bicycle, given as the grand prize to the Junior Seedsman who sold the most collections of seed last spring, is Lance Welling, age 13, 3962 Keokuk, St. Louis 16, Mo.

There is no doubt about Lance being the winner. He sold 300 collections—a new all-time record. No one in the history of our Junior Seedsman organization has ever come close to that mark. He most assuredly is to be congratulated on doing a splendid job.

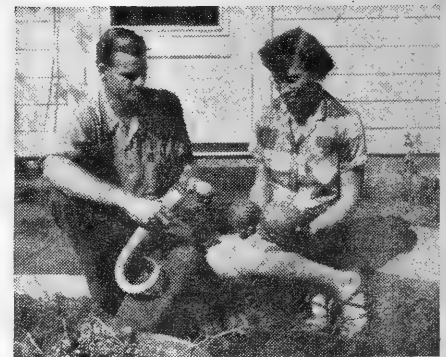

We had hoped to have a picture here in Seed Sense of Lance and his new bike, but we haven't received a picture yet, so we'll try to put one in the next issue of Seed Sense.

A good deed is the best prayer.

Evergreens Need Water All Winter

Please see that your evergreens go into the winter with a good supply of water down in the ground around their roots. Unlike the plants that go dormant, evergreens stay awake all winter, and need more water.

After the top crust of soil has frozen, not much moisture finds its way from the ground surface down to the roots. So give your evergreens a good, pig drink this fall before the ground freezes.

All H.F. Seeds Grew Well

"Dear Field's: I am enclosing a picture of my wife, Dorothy, and me with some of the vegetables I raised from your seed last year. All your seeds really grew well. We had plenty of vegetables all summer and fall. Also gave a lot away."—Robert W. Koeneman, 927 Paulding Road, Ft. Wayne, Ind.

\$1.00 for Your Snapshots

Sure, we still need and want your snapshots. Couldn't put out a Seed Sense or a catalog without them. Then too, we here at the Seed House enjoy looking at them because they give us an idea of how our seeds and nursery stock are doing. They also help us to get to know you better. So come on and send us your extra snapshots. Send us pictures of your children, your homes and farms, crops, vegetables, flowers, etc. Of course we can't use all the snapshots we receive, but we'll pay \$1.00 each for those we do use.

(Don't send negatives as we cannot use them. We also suggest that you do not send us pictures you may want back, as we like to keep all we receive.)

How We Ship Your Orders

If some of you folks who have sent in large orders don't get everything at the same time, it probably is because we have split up your order according to when different items should be planted. Orders are filled when stock is in best condition and during proper planting time. Garden seeds and non-perishable goods are sent immediately. But perennials, house plants, evergreens, bulbs, etc. are sent in separate packages, even when sent the same day as the rest of your order. So you needn't worry if you don't get everything at once. Just read the papers that come inside the package. They will give you full details.

Huge Elephant Ears

"Henry Field Seed & Nursery Co.: Am enclosing a picture of my wife, Mildred, and the Elephant Ear plants we raised by our back door this summer. The largest leaves measured 28 by 40 inches. We are wondering if this is a record, as they are the largest we have ever seen."—Alvin R. Kidwell, 2615 So. Fork, Wichita, Kansas.

Your plants may not have been the very biggest ever grown, but we'll bet they were among the biggest. We've never heard of many bigger.—Ed.

Tips on Mulching

There's no difference in the way things should be planted in the fall than in the spring, except that in the fall the plants should always be mulched. Mulching prevents the continual freezing and thawing that causes the ground to heave up the plants. Make your mulch of straw and leaves or lawn clippings. Leaves alone should not be used as they are apt to mat and smother the plants.

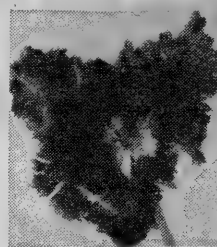

Shrubs, roses, grapes, etc. should be hilled up with mounds of dirt 8 to 18 inches high, depending on the kind of plant, and then mulched. Other nursery stock should be mulched well with straw and leaves or manure, and the manure worked into the ground next spring.

Best Way to Plant Peonies

Peonies do best in a deep, rich, moderately moist loam. For best results, the soil should be dug deeply and worked well with a good fertilizer. Set out the plants in early fall. It is important that the pink eyes be planted between 1½ to 2 inches below the ground—no more and no less. A distance of about 3 feet between the plants is best.

At Last! A "Black" Parrot Tulip

The Most Sought After of All Tulips

Here is something that is really something! It's the newest thing in tulips—a black parrot—the most sought after of all tulips on the market today. There have been black tulips before but never a black parrot tulip.

We obtained this brand new tulip from Holland too late to offer it in the regular catalog section where you could see its striking beauty in full color. So, since it is so unusual and scarce, we thought we should offer it here in the Seed Sense section and try to describe it especially well for you. (The above picture, the only one we have of this tulip, is a poor one. It does not even begin to show Black Parrot's true beauty.)

Its color is deep, rich, maroon-black. The blossoms are huge—easily 7 to 9 inches across—and are so fantastically frilled and fringed you marvel at how the blossoms are able to hold together. The stems are strong and long, usually attaining a height of 2 feet or more. Thus, the striking flowers borne on the tall stems immediately demand the attention of all who see it.

Put all these features together—a true black color, huge frilled and fringed blossoms, tall 2-foot stems—and you can easily understand why this new Black Parrot Tulip is the most sought after of all tulips.

Order No. B6326. 50c each; 3 for 1.30; 6 for 2.20, postpaid.

New WARFARIN Best of All Rat and Mouse Poisons

Sensational new Warfarin is by far the most effective rat and mouse poison on the market today. If used according to directions, Warfarin never fails. It kills whole colonies easily and inexpensively! Warfarin is a better rodenticide for these four reasons:

(1) It is much less dangerous to humans, livestock, pets and poultry.
(2) You don't have to bother with two different poisons. Warfarin gets both rats and mice.

(3) Warfarin is odorless and tasteless. Rodents do not develop "bait shyness."
(4) Warfarin kills slowly. Dead and dying rats do not warn rest of colony.

Discovered at the University of Wisconsin and released in 1950 for general distribution, Warfarin is now on the market under several different brand names. Naturally, we think that our "Henry Field Warfarin Rat and Mouse Killer" is the best of all.

We sell it in two forms:

(1) Warfarin Concentrate, which you mix with bait such as laying mash, ground oats, or cornmeal. Order No. 4070. Warfarin Concentrate. 4-oz. can (makes 5 lbs. bait) 1.75; 8-oz. can (makes 10 lbs. bait) 3.00, postpaid.

(2) Ready-Mixed Warfarin, which is already mixed and ready for use. Order No. 4063. Ready-Mixed Warfarin. 1 lb. 98c; 5 lbs. 2.95, postpaid.

Both are fully guaranteed. Simple directions come on each can.

JOHN W. NICOLSON DIES

John W. Nicolson, 61, internationally famous seedsman and agronomist, and Vice President of the Henry Field Seed & Nursery Co., died at his home in Shenandoah, Iowa, on May 22 of a heart attack.

"Alfalfa John," as he was known to the readers of Seed Sense, suffered his

first heart attack two years ago, but for the past several months had been well enough to spend several hours a day at his desk at the Seedhouse. Then death came suddenly while he was watching television in his living room.

Mr. Nicolson was born on a 200-acre farm near Marlette, Mich., and graduated from Michigan State College in 1915. After graduating, he served for several years as extension agronomist professor for the college, and later as Secretary of the Michigan Crop Improvement Association. In 1919, he, with several other agronomists, founded the International Crop Improvement Assoc. In 1920, he organized the Michigan Farm Bureau as a cooperative.

Working as a seedsman, he was prominently connected with J. G. Peppard Seed Co. of Kansas City and later with the May Seed Co., before becoming an officer and stockholder of Henry Field Seed & Nursery Company in 1935.

Mr. Nicolson was a member of the International Relations Committee and National Garden Program committee of the American Seed Trade Association and was past president of the Western Seedsmen's Association. During World War II, he was a member of the OPA advisory committee on field seeds, the OPA Committee on vegetable seeds, and the War Food Administration advisory committee on field seeds. He was the only man to be a member of all three groups. In addition, he was, for three years, chairman of a task force on legume seed shortage for the War Food Administration.

The Shenandoah Evening Sentinel, in writing of John Nicolson, said, "John was a mixture of many things, most of them idealistic. He was truly a farmer at heart. During the last few weeks he enjoyed taking short drives with his friend Barr Keshlear to see the livestock. I believe he bought some calves just to have them around for the pleasure of watching them. . . . He lived a full life; he accomplished great good; his work will live and the world is far better for his having passed through. What more can one say of a man?"

Calla Lilies for Potting

We have some dandy Calla Lily bulbs that are ideal for potting. They're big, healthy bulbs that will make tall, stately blooms and fine, beautiful foliage. Calla Lilies are easy to grow and require only ordinary care. Really are hard to beat for a potted plant. Full directions come with each order. Available in three colors.

White—BG411, Yellow—BG412: 40c each; 2 for 69c. Pink—BG417 (a new, different, rare type): 50c each; 2 for 89c.

Collection of one each of all three colors—BG592X—only 1.09. All prices postpaid.

Our Nursery Guarantee

All our stock is guaranteed. If you are not pleased with it in every way when you receive it, return it promptly, at our expense, and it will be replaced or your money refunded, whichever you prefer. After you have planted it, if it fails to grow, we think we should both take part of the blame. We will take one-half and you and the weather take the other, and we'll replace at half-price anything unsatisfactory through any fault of the stock if you notify us not later than May 1, 1954. Accompany your report with a remittance of one-half the original purchase price.

If you wonder how we can make such a guarantee, here are some of the reasons:

1. Our nursery stock is all state inspected.
2. Our nursery stock is free from disease.
3. Our nursery stock is of the highest quality.
4. Our nursery stock is true to name.
5. Our nursery stock is mature, live, ready-to-grow stock, first-class in every way.

Giant Hybrid Amaryllis

One of the most striking flowers you can grow indoors is the Giant Hybrid Amaryllis. In fact, it's one of the most beautiful and spectacular bulb plants there is. Our hybrids have big, wide-petalled flowers, averaging 4 to 6 inches across, and often have 10 or more blooms on a stem. Coloring is gorgeous. Ranges from almost white to a real dark red with very delicate shadings.

Planting and care are simple. Just put a bulb in a pot with ordinary soil, keeping the neck and about one-third of the bulb protruding. Put in a cool, shaded place. Water sparingly until several inches high. Then bring out of the shade, give plenty of water and keep at a temperature of around 70 degrees. More directions come with each bulb.

Order No. BG401. Mixed colors only. 59c each; 2 for 1.10, postpaid.

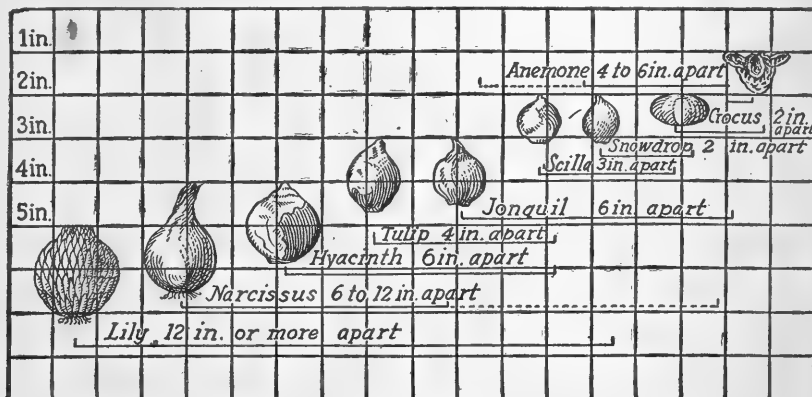

Golden Wedding

"Dear Mrs. Field: Here is a picture we had taken on our 50th Wedding Anniversary, which was Nov. 23, 1952. We had a lovely anniversary. Our six children were all home that day, the first time in thirteen years. We enjoy Seed Sense so much."—Mrs. M. B. Ehrenfelt, Kalona, Iowa.

No C.O.D.'s, Please

Unfortunately, we just can't ship C.O.D. There are so many delays in shipping this way that it isn't practical. Nursery stock should be planted just as soon as possible after leaving here, and if it has to wait around to be delivered it may not do too well. So, this is for your own protection. Then too, C.O.D.'s always cause a lot of red tape, which in turn causes higher prices. We know you folks want to buy things at as low a price as possible, so by not having C.O.D.'s, we can keep our prices down.

Plant Bulbs in the Fall for Spring Beauty

Take care in planting fall bulbs to see that they have every chance of success and play their full part in beautifying the garden. The above Bulb Planting Depth Chart will show you the depth and distance apart to plant bulbs. If the ground has been newly spaded, and is quite loose, the depth should be increased an inch or so to allow for settling, and because of the increased effect of frost heaving on newly turned soil. Also, late planted bulbs, which have no opportunity to make roots before the soil freezes, may be set a little deeper to protect them from frost action.

Why You Should Fall Plant

Fall planting is becoming more and more popular. We've been preaching it for years and now the state experiment stations are heartily recommending it. With the exception of a few varieties of plants that should only be planted in the spring (these are not included in this catalog) there are distinct advantages in fall planting and here are a few of them:

- (1) **Plants get six-months head start.** The roots of fall planted stock do considerable root growing in the late fall and early spring and become established well ahead of spring planted stock.
- (2) **Stand up better.** Because they're established, and since they have had the benefit of early moisture, the plants can take the first hot, dry summer weather better.
- (3) **Often bloom first spring.** Fall planted plants often bloom the first spring, as they are sufficiently established to do so.
- (4) **People can usually put in a better garden.** Because most people are busier in the spring than in fall, they don't put in nearly as many plants as they would like. In the fall you can do more leisurely, careful, and, therefore, better planting.

Since you have to order spring blooming bulbs, such as Tulips, Hyacinths, etc., in the fall, just add whatever nursery stock and perennials you would like. We'll send you first-class stock, in first-class condition and you can see for yourself how successful fall planting is.

When We Ship Shrubs and Fruit Trees

Each fall we receive letters from many of our customers asking why they haven't received their shade trees, fruit trees, shrubs and roses, or why these items weren't received at the same time they got their tulips, daffodils and other fall-planted bulbs.

This article, we hope, will answer most of the questions you may have about when we ship things in the fall.

Fall bulbs are ripe and ready to plant from about the early part of September on. Therefore, as soon as we receive them from Holland, we ship them right on to you. Most perennials are ready for planting by at least September 15, and these, too, are usually shipped out in a hurry.

But, with shade trees, fruit trees, shrubs and roses, it's a different story. We can't ship them until the plants are ripened by losing their foliage. Ordinarily it takes one or two good strong frosts to kill the foliage on this type of nursery stock. Then and only then can these items be dug and shipped. Of course, most people know we can't go out and dig a shade tree in full leaf, wrap it up and send it to a customer. It would be a sorry sight by the time it was received. And it wouldn't live anyway. So, we just have to sit and wait until Mother Nature gets the plants ready for us.

Usually our shrubs, trees, etc., are ready for shipping about October 15—sometimes a little later than that. But actually, even if we were able to send out these items before that time, they shouldn't be planted that early anyway. The weather usually is much too warm. In addition, no tree or shrub or rose will put on one single bit of outward growth the fall it is planted. It isn't supposed to. It is going to sleep then for the winter—not coming to life.

The idea behind fall planting is to get the stock into the ground so that it will become established before spring. Once in the ground it will make some root growth, and with the first breath of spring will be ready to shoot into full leaf—usually long before you could receive spring stock from us.

We have found fall a natural time to plant nursery stock. We do most of our own nursery planting in the fall. We start about the latter part of October and run on through November until freezing weather. It doesn't matter in the least if there is a heavy crust on the ground at the time you plant. Just break through the frozen crust and plant the tree or shrub. Then mound it up well so that the frost will not heave it out

before spring. That is all there is to fall planting.

As mentioned above, we hope this article has answered any questions you may have had about when to expect your nursery stock this fall. However, if we haven't satisfactorily answered your particular question, please feel free to write us. We always like to hear from our customers and we're always happy to be of service.

The "100 Most Popular Iris"

Each year the American Iris Society conducts a poll among its members to determine the 100 most popular Iris in the country.

Now it stands to reason that in choosing their favorite varieties, this group of 4500 Iris lovers who make up the Society will pick Iris that have outstanding beauty, heavy blooming habits, and are good growers. Feeling that 4500 experts can't be wrong, we study the "100 Most Popular Iris" lists very carefully each year and to a great extent are guided by these lists in making our selections for sales and planting.

In the limited space that we have here we are not going to print the complete list of the "100 Most Popular Iris" for 1953. We are, however, going to list the first 20 to show you that we do offer most of the very finest of all. The first 20 are:

- No. 1—*OLA KALA. This is the fourth time this beautiful, free flowering golden yellow has led the list.
- No. 2—*SABLE. A rich, deep black-violet all-time favorite.
- No. 3—*GREAT LAKES. A classic blue beauty.
- No. 4—*BLUE RHYTHM. Has taken about every award possible from the American Iris Society.
- No. 5—*BLUE SHIMMER. A large plicata-white ground with blue stitching.
- No. 6—*LADY MOHR.
- No. 7—*ELMOHR.
- No. 8—*CHIVALRY.
- No. 9—*SNOW FLURRY.
- No. 10—*SOLID MAHOGANY.
- No. 11—*PINK CAMEO.
- No. 12—*WABASH.
- No. 13—*BLUE MASTER CHARLES.
- No. 14—*MINNIE COLQUITT.
- No. 15—*BRYCE CANYON.
- No. 16—*MULBERRY ROSE.
- No. 17—*AMIGO.
- No. 18—*RANGER.
- No. 19—*HELEN MCGREGOR.
- No. 20—*AZURE SKIES.

OLA KALA

Of the above 20, we offer 15 in this catalog—either on pages 8 and 9 or the front cover. The varieties in the above list with stars in front of their names are the ones we offer. The 5 varieties we do not carry are all blue and were left out so as not to overbalance our list on the blue side.

As you will notice, if you check the prices of these Iris, most of the varieties are comparatively inexpensive. They aren't the brand new, untested \$15 and \$25 varieties; nor are they the much publicized, frilled and bedecked debutantes that may or may not make the grade. Instead, they are the good, solid varieties that have proven their worth beyond a doubt.

All in all, it's not hard to see that we offer some truly outstanding Iris. Many of the world's very best varieties! And, one of the important things to keep in mind, whether you're buying some of the above better, more acclaimed Iris, or some of our other fine varieties, is that we sell our Iris as cheaply as possible. We don't think you'll find a place in the country where you can buy fine Iris for less than our prices.

Are You Getting Two Catalogs?

If your family is getting more than one catalog, we would sure appreciate knowing it. We send out a catalog to each name on our list, but sometimes different members of families or different people at the same address order from us and each different name is put down. So, two or more catalogs are sent to the same address, and because of this we sometimes don't have enough copies to go around. If you do have an extra catalog please do us a favor by passing it on to a friend, and then let us know about it on the coupon below. Thanks.

Orange Ruffels

The Most Fragrant of All Roses

We have always been greatly interested in Brownell roses because their extreme hardiness is coupled with a beauty that rivals that of any other rose on the market today. We are pleased to be among the few who will offer the brand new Brownell Hybrid Tea rose, Orange Ruffels, this fall.

It is an outstandingly beautiful rose of clear orange, with 60 or more petals—making it fully double and solid. Over-shadowing even its remarkable beauty, in our opinion, is its appealing fragrance. To the normal tea rose perfume has been added an alluring spiciness, making an exceptionally pleasing fragrance.

The plant has a tendency to make a bushy, rounded growth, each branch of which produces a continuous succession of roses all summer long. We suggest you try a plant or two this fall. You'll thank us for telling you about it.

Fall Excellent Time for Renovating Old Lawns, Seeding New Lawns

Early fall, from late August through September, is an excellent time to undertake renovation of old lawns and seeding of new lawns. Since permanent lawn grasses are extremely slow in early growth, the cool moist weather of autumn is very favorable to their germination and establishment of a good, strong root system.

HELEN FIELD FISCHER DIES

Famous as "Flower Lady" of Radio Helen Field Fischer, 77-year-old sister of the late Henry Field, died April 24, 1953, at her home in Shenandoah, Iowa. In January, she had fallen on an icy walk and broken her leg and, although she recovered sufficiently from that injury to walk again, it contributed to her death.

Mrs. Fischer broadcast as the "Flower Lady" from Radio Station KFNF, Shenandoah, almost continuously from 1925 to 1951, and was the author of the books "The Points on Planning Your Landscape," and "Arrangements of Cut Flowers." She and her daughter Gretchen Harshbarger (now Garden Editor of Householder magazine) wrote and illustrated "The Flower Family Album."

Mrs. Fischer is survived by her husband, one brother, four sisters, and three daughters.

Dormatone Prevents Potatoes from Sprouting

You can now store your home-grown potatoes for months without cold storage by using Dormatone, the new hormone sprout inhibitor that prevents sprouting, softening and shriveling.

Use of Dormatone actually eliminates spoilage and large loss of weight. Shrinkage is cut down 10% to 15%. In addition, it helps retain the nutritional value of potatoes and actually improves their cooking and eating qualities. And, Dormatone can also be used with equal success on other root crops, such as beets, carrots, turnips and rutabagas.

It's easy and inexpensive to use—you just dust it on. Absolutely harmless, too. We've tried it on all sorts of root crops and are completely sold on it.

Order No. 4053. 12-oz. sifter can (treats 8 bu.) for 1.00, postpaid.

Green Thumb Plant Food

If your plants get hungry and sickly, with yellow leaves, stunted growth and colorless flowers, they need food, water and cultivation. You can either spend hours fertilizing these hungry plants or you can use Henry Field's "Green Thumb Plant Food" and do a better job in a shorter time. And we don't know of anything better for starting newly planted things off right. Besides being an excellent food for indoor and outdoor plants and flowers, it works equally well on lawns, shrubs, trees and vegetables. (Incidentally, we've found that it does a fine job on African Violets.)

One 16-oz. package of our Green Thumb Plant Food makes 32 gallons of liquid fertilizer. Full, simple directions on package tell how much to use for various plants, trees and lawn. It's easy, safe, and inexpensive to use. You'll be surprised at how little it costs. You'll also be surprised at the results.

Order No. 4041. 16-oz. package Green Thumb Plant Food only 1.15, postpaid.

Af. Violets Carefully Packed

"I want you to know how pleased I am with the African Violets I ordered recently. They arrived in wonderful condition, so fresh and healthy. Never saw such careful packing of live plants."—Mrs. David Hunter, 2606 N. Nevada Ave., Colorado Springs, Colo.

"Dear Sirs: Am sending a picture of the New Guinea Beans we raised in our garden from your seeds. We had quite a thrill showing them to our friends. Our daughter, Georgia, is pictured with them."—Mrs. L. J. Bonnemier, 1503 Ames Ave., Omaha, Nebr.

New Way of Growing EVERBEARING STRAWBERRIES Increases Yield Over 50%!

Tests conducted by Dr. E. L. Denisen of the Iowa Agricultural Experiment Station, have revealed a way to increase the yield of everbearing strawberries over 50%! And it's a simple method, one that anyone can successfully use. It's called a "mulch and runner-pulling system."

Of several planting plans tried, the most desirable consisted of beds of 3 rows 12 inches apart and plants 12 inches apart within the rows. A 2-foot path was left between the beds.

Because everbearers like a good supply of moisture, a summer mulch, consisting of 2 inches of cracked corn cobs, was applied to the plants a month after planting.

Then, to divert the food manufactured by the plants into the production of berries instead of new plants, all runners were removed from the plants at frequent intervals. All blossoms, too, were removed from the plants until June 25 the first season.

And that's all Dr. Denisen did. By using this plan some sensational yields were obtained. With the everbearing strawberry Superfection, yields as high as 13,000 quarts per acre the first year and 14,000 quarts per acre the second year were harvested! Normal yield for most growers of Superfection, incidentally, is between 5,000 and 6,000 quarts per acre. So you can see for yourself just how successful this new "mulch and runner-pulling" system is. We suggest you try it.

If you wish more information about the "mulch and runner-pulling system," write directly to Dr. E. L. Denisen, Iowa Agricultural Experiment Station, Ames, Iowa.

Our Merion Bluegrass Mixture Will Give You a Prettier, Healthier Lawn

Our new 100% perennial grass mixture containing the new sensational Merion Bluegrass is the best grass mixture we have ever offered.

This mixture contains: 30% Merion Bluegrass—the finest of all Bluegrass, 50% Creeping Fescue—to thicken the turf, 10% Highland Bent Grass—the most disease and drought tolerant of all the Bents, and 10% Red Top—for thin soils and to act as a nurse crop.

Plant this fine mixture this fall and have a beautiful lawn next spring. The seed in this mixture goes more than twice as far as most grass seed mixtures, so figure 1 pound per 750 sq. feet.

1 lb. 2.65; 3 lbs. 7.80; 5 lbs. 11.85; 10 lbs. 23.50, postpaid. Hurry your orders in as our supply of seed is limited.

Lot Hardy Grimm Alfalfa

Our Lot Hardy is strictly northern-grown Grimm Alfalfa. It is fully 97% pure—free of bad weeds. The color is not as bright as our top quality, but the value and hardness is there. We sold more of this lot last spring than any other Alfalfa. See price list on opposite page.

Tests Indicate Arasan Seed Disinfectant Increases Yields Up to 59%

Better stands of alfalfa, clover, Kentucky blue grass and other small seeded legumes have been obtained by treating the seed with Arasan seed disinfectant before planting in tests at the DuPont Laboratory and at several state experiment stations.

Summary of 1951-52 field tests by DuPont showed increased stands after treatment with Arasan as follows: Alfalfa 32%, Red Clover 57%, Lespedeza 59%, Sudan 41%, misc. grasses 25%.

The seeds of grass and small legumes, being very small in size, carry little food reserve to see them through the period from germination until the seedlings become established. For this reason, they can be killed off easily by adverse weather conditions and disease. Anything that helps the seedling get past this stage, where seed mortality is so high, is important.

The purpose of treating the seed is to protect it from the growth of fungi on the seed and in the soil which cause seed decay, damping-off, seedling blight and root rots.

Arasan does not take the place of Nitragin Inoculant. Add Nitragin after treating with Arasan—not before or at the same time.

It is very easy to treat your own seed yourself at time of planting. Just follow directions on the can. It takes 6 to 8 oz. to 100 lbs. of seed.

We recommend that you treat the following legumes and grasses with Arasan:

LEGUMES	GRASSES
Alfalfa	Timothy
Red Clover	Meadow Fescue
Alsike	Red Top
Ladino Clover	Bent Grass
White Dutch	Kentucky Blue
Birdsfoot Trefoil	Sudan Grass
Korean Lespedeza	
Sericea Lespedeza	

Order No. 4006—8 oz. can Arasan, 1.00; 4 lb. can 6.00, postpaid.

New Merion Bluegrass

For those of you who want the pure Merion Bluegrass to plant in a new lawn or add to an old one, we can supply you with a limited amount of seed.

Here, in short, are the main advantages of Merion Bluegrass:

- (1) Has an excellent dark green color and appearance.
- (2) Helps crowd out Crabgrass and other weeds.
- (3) Is highly resistant to heat and drought—stays dark even in the hottest, driest weather.
- (4) Has high resistance to leaf spot and other diseases.
- (5) Requires less mowing.
- (6) You use less seed when planting because plants spread fast.

If you want some of this finest of all Bluegrass, place your order soon. We sold out early last year. Use 1 pound of seed per 750 sq. feet of lawn surface.

1 lb. 4.95; 3 lbs. 14.25; 5 lbs. 22.50, postpaid.

Chicks 100% in Every Way

"The baby chicks I got from you last year were 100% in every way. All were alive on arrival. I didn't lose a one and had 2½ lb. fryers at 7½ weeks. The pullets started laying at 5 months old."—Mrs. Earl Litz, Basset, Nebr.

Write for Our Special "Thanksgiving" Price List of Field Seed and Seed Corn Bargains

Between November 20 and December 1 we are going to put out a special price list of field seed and seed corn bargains. It will be available only to those who write in for it.

In recent years the field seed price list appearing in the Fall Catalog (like the one on the opposite page) has been the last field seed price list you have received from us until we sent you our Spring Catalog in January.

Many people like to buy their field seed and seed corn before January 1 so they can put the cost of these deductible items in the tax year closing December 31. Since taxes apparently are going through a period of adjustment downward, it would seem especially desirable this year to get all the deductible items into the 1953 year when taxes will likely be higher than they will be for the year 1954.

Furthermore, we have made some very favorable early purchases of alfalfa seed,

New Formula Water-Way Mixture

We have worked out a special formula for fall planting. Just the thing for water-ways, terraces, contours and ditch banks. We use only the best grasses. Included in the formula are: Brome Grass, Reed's Canary, Alta Fescue, Meadow Fescue, Kentucky Blue Grass, Rye Grass and Timothy. Sow 20 pounds to the acre.

It's a tremendous value at only 11.85 per 50 lbs.; 23.50 per 100 lbs.

Certified Ranger Alfalfa

This fine lot of Certified, Blue Tag Ranger Alfalfa was grown from hardy foundation seed stocks. Sealed in bushel bags, there is none finer.

Ranger is wilt resistant, producing high yields of leafy, fine stemmed hay and lots of it. Extremely winter hardy and long lived. Our sales have tripled the past year on Ranger seed. You can't beat it for quality in purity and germination or color. Early purchases make our low fall price possible. This is by far the lowest price that Ranger seed has been offered for since its introduction. Get yours early while we have it for you. See price list on opposite page.

red clover seed, and some other seeds on which we can offer some very low opening prices—much below those of recent years. However, we do not expect to be able to continue these extremely attractive prices in our 1954 Spring Catalog.

Therefore, we have decided to put out a special "Thanksgiving" price list this fall which will give you a chance to include your spring seeding costs in your 1953 tax returns and save yourself some money on seed at the same time. But please remember, it will be available only to those who write in for it.

If you are interested in receiving one of these "Thanksgiving" price lists, fill out the coupon below and send it in to us now or at your convenience. (Send a card or letter instead of using the coupon, if you prefer.) This will insure that you get our early low prices on field seed and seed corn.

Soot Destroyer

Rids Your Furnace of Soot—
Easily, Safely

Here's a product that is just the thing for cleaning soot and carbon from furnaces, stoves and chimneys. And it is easy, safe and inexpensive to use.

Soot Destroyer, which is a nonexplosive powder, is chemically perfected to destroy soot and carbon in coal, oil or wood-burning furnaces, stoves, boilers, etc., and in chimneys. You merely put the required amount of powder into your heating equipment when the fire is going and that's all there is to it.

If you have never cleaned the soot and carbon out of your heating equipment, we suggest you use a can of Soot Destroyer this fall. By using it, not only will you get more heat from less fuel, but you will eliminate the danger of fire and chimney fires caused by excessive soot and carbon.

We guarantee it to do the job or your money back. Simple directions on each can.

Order No. 4049—Soot Destroyer. 1-lb. can (normally enough for several cleanings), 60c; 3 1-lb. cans, 1.45, postpaid.

One ounce of mirth is worth more than ten thousand tons of melancholy.

Aluminum Tree Protectors

Keep Rabbits from Killing Your
Young Trees and Shrubs

We have just the thing to stop rabbits from gnawing and girdling your young trees and shrubs and to prevent sun scald. It's our Aluminum Tree Protector—the newest and best tree protector we have ever found. Rabbits positively won't bother your trees after you put them on.

They are thin sheets of aluminum 10 inches by 18 inches. You can just wrap them around the tree and crimp the edges. They fit any ordinary size young tree and will last for several seasons.

They're cheap, too: For just \$1.50 (about the price of one tree) you can protect a whole yard full of trees or a small orchard. At this low price you really can't afford to risk your trees and shrubs this winter.

Order No. 4076—Aluminum Tree Protectors. 25 for 1.50; 50 for 2.65; 100 for 4.25, postpaid.

P.S. So that the Aluminum Tree Protectors will fit tighter, some folks prefer to use "Twist-Ems" Plant Tie (instead of just crimping the edges) to fasten the Tree Protectors to trees. "Twist-Ems" are strong, dark green waterproof tapes with wire reinforcing. After the Aluminum Tree Protector is wrapped around the tree, just tie in place with 2 or 3 "Twist-Ems". Order No. 4072—"Twist-Ems" Plant Tie. Box of 100, 8 inch length, 30c, postpaid.

Best Popping Corn You Ever Ate

There's nothing like a bowl of good popcorn on these long fall and winter evenings. Popcorn has been a specialty with us for many years. We try all the new varieties as soon as they come out and we've introduced some of the finest of the newer hybrids, so you can see we do know good popcorn. We, therefore, sell only the best.

This fall we are very fortunate in having two extra-fine varieties. Both are hybrids and simply cannot be beat for flavor or quality. Every bit of the corn is guaranteed to pop.

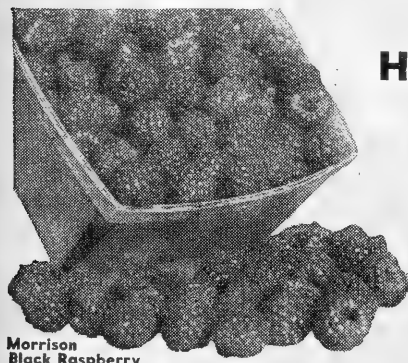

Order No. 190—Yellow Hybrid South American. Pops big, creamy yellow flakes. 5 lbs. for 1.25.

Order No. 191—Hybrid White Hulless. The small white kind. 4 lbs. for 1.25.

(We pay postage on orders to Iowa, Missouri, Nebraska and Kansas. If you do not live in one of these states, please add 5c a pound to help cover postage.)

P. S. With each order we will enclose a leaflet of popcorn recipes.

Here's How Henry Field's Give You BETTER STRAWBERRY PLANTS for Fall Planting

We are delighted that we are now able to offer you fine dormant strawberry plants—available on any date you want them—for fall planting. Just write the date you want them on your order.

These will be dormant plants in just the same condition as they were when placed in storage. They have some green leaves, but not many. (Green leaves mean nothing. The new growth comes from the crown.) The important thing is that they are in just the right condition to get rooted and some growth on before winter.

This certainly is a great step forward

from the small fall-dug plants (never ready before last of Oct.) always offered by Nurseries up to this time.

The plants will come to you in polyethylene sacks without packing of any kind on the roots. We have been working on this new method with Iowa State College for several years in a concerted effort to get fresh, living plants to you in the best possible condition. Let us know how you like them.

IMPORTANT—Be sure to mulch your strawberries with 2 to 3 inches of coarse litter (rye straw, pine boughs, etc.) at freezing time. This keeps the ground from freezing and thawing.

How to FALL PLANT STRAWBERRIES

It's Easy—and It Pays

Fall planting gives strawberries a running start for next spring. Just mulch them well after the ground freezes. Don't use dirt. Use 2 to 3 inches of straw or some coarse litter that will not pack (don't use leaves). It's not that the plants aren't hardy enough—they are—but, unless the ground is mulched the first year to prevent freezing and thawing, the plants are very apt to frost heave.

You folks from middle Missouri south can plant on into the winter, depending how far south you are. North of Missouri, strawberries can be planted in October.

JUNE BEARERS

B4110—HENRY FIELD'S GIANT. Sweetest of all. Huge size. Disease and frost resistant. 25 for 2.10; 50 for 3.65; 100 for 5.98; 200 for 10.79; 500 for 24.98, postpaid.

B4103—BELMAR. One of the choicest. Easy to grow. 25 for 98c; 50 for 1.69; 100 for 2.98; 200 for 5.69; 500 for 12.75, postpaid.

B4107—SENATOR DUNLAP. The old favorite. 25 for 89c; 50 for 1.49; 100 for 2.75; 200 for 4.98; 500 for 11.75, postpaid.

B4104—BLAKEMORE. Drouth resistant. Commercial freezers like it. 25 for 89c; 50 for 1.49; 100 for 2.75; 200 for 4.98; 500 for 11.75, postpaid.

B4123—ROBINSON. Very large berries.

Ripens after Dunlap. 25 for 98c; 50 for 1.69; 100 for 2.98; 200 for 5.69; 500 for 12.75, ppd.

B4101—ARMORE. A brand new June bearer just right for Midwest. Very disease resistant. Heavy yielder of fine fruit. 25 for 1.39; 50 for 2.35; 100 for 4.25; 200 for 7.65; 500 for 17.98, postpaid.

B4108—EMPIRE. A fine new variety introduced by N. Y. Exp. Station. Berries like those of famous old "Premier," but are larger and firmer. Have wonderful flavor and are excellent for freezing and canning. Plants are vigorous and do well under most all conditions. 25 for 1.39; 50 for 2.35; 100 for 4.25; 200 for 7.85; 500 for 17.98, ppd.

Special Freeze Box Collection

B4213X—This is for those who want their berries to come all at the same time, so they can freeze 'em and get it over with in a hurry, but who want several different flavors:

A2031—NEW THORNLESS. Immense dark purple berries of delicious flavor. Easy to pick because bushes are thornless. 39c each; 3 for 89c; 6 for 1.25; 12 for 2.29; 25 for 4.19, postpaid.

FRUIT Fall Planted GAINS 6 MONTHS

Any fruit listed here can be fall planted. Just leave a mound of dirt around the base of the tree until spring to prevent heaving.

In very cold climates, bury the stock in a trench, top and all, and mound dirt over the trench to shed water. When dug for spring planting, they will be in

a beautifully fresh condition.

Remember, it is often the last of October before fruit trees become dormant enough to dig in our nurseries and ship to you. So don't expect delivery before that time. You can plant fruit trees any time up until the ground freezes too deep to open up.

Henry Field's DE LUXE GRADE of Apple, Pear, Peach, Plum, Cherry

FASTER GROWING—BETTER SHAPED—QUICKER BEARING

Henry Field's DeLuxe Grade of Fruit trees will make faster growing, better shaped, quicker bearing trees for you. They are extra-select jumbo-size, the very finest of their kind.

What Our DeLuxe Grade Means

It means that: (1) you get well-branched, heavy rooted, straight-trunked, jumbo-size trees; (2) roots of trees are specially wrapped in moist moss, which keeps trees in live growing condition; (3) proper pruning points painted on branches; (4) proper planting depth is indicated on trees; (5) complete directions given on best way to handle the trees. All in all, it means you get the best of the biggest, quickest bearing trees.

Guaranteed to Live

We are so confident that you will not lose one of these trees that we will replace it absolutely free if it is not in vigorous growing condition one year from the date you receive it, provided you have trimmed, watered and properly cared for it. Of course we are not liable for damage from drouth, flood, mice and rabbits.

RHUBARB

A1955—Famous Chipman's Canada Red. This new rhubarb was recently introduced from Canada. It's the best of all rhubarbs. The stalks are large and completely red from bottom to top, even the flesh. Cooking does not take its rich color but makes it more appetizing for pies and sauce. Sweetest of all. Takes less sugar. You can pull the big stalks all spring and summer and almost 'til fall. Seedless. Large No. 1 roots 98c each; 3 for 2.69, postpaid.

DELCON a true DWARF APPLE

for only 1.89

Delcon

Delcon was originated by the Missouri State Experiment Station at Mountain Grove, Mo., and offered for sale for the first time in the United States in our March 1948 Seed Sense. Its parentage is Ben Davis, Jonathan and Delicious—a true dwarf with drooping branches.

Some dwarf apple trees are made by multigrafting, a complicated process which is more expensive and when you end up you don't have much of a tree; and they have to sell for five or six dollars. But Delcon is a single-graft, a true dwarf, a small tree (for easy picking) with full-sized apples, and we sell it for only 1.89, postpaid. Perfect for the backyard.

The fruit is fine grained, juicy, and has some of the flavor of both Delicious and Jonathan. It produces heavy at an early age, seldom needs thinning, ripens about ten days before Delicious, and keeps well in storage.

You ought to plant it. Deluxe Grade not available.

No. 3015, 3 to 4 ft. size, only 1.89 each, postpaid. 4 to 5 ft. size, only 2.19 each, postpaid.

Henry Field's NEW, HARDY HYBRID ELM

Fastest Growing Tree in the Temperate Zone

This amazing new tree combines the permanence and beauty of the American Elm with the rapid growth of the Chinese Elm. Apparently immune to Dutch Elm disease. Grows 8 to 14 feet per year—gives you shade in a hurry.

And it is extra hardy. Keeps right on growing in weather hot and cold, wet or dry. Its leaves are large and dark green; the bark is smooth and a medium grey color. The branches are straight and strong; won't break in a high wind.

NOTICE: Hybrid Elms sometimes start slowly in the spring—maybe sulk for as long as two months, then start growing like mad. It's the nature of the beast, so be patient with it. It soon

will more than make it up. The best time to plant Hybrid Elms, or any other tree, is in the fall when the trees become dormant enough to move (usually late October, when we ship), up until the ground is frozen so solid you can't crack it. Mound a pile of dirt around the base of the tree for the first winter to prevent frost heaving. Rabbits like young Hybrid Elms, so tie fine-mesh wire or heavy paper around the trunk for the first couple of winters.

LOMBARDY POPLAR

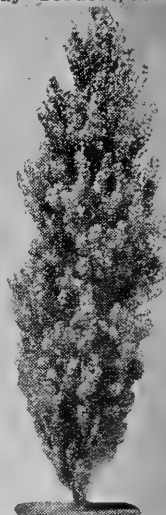

The Beautiful Pillar Tree

A4255—This is the beautiful, popular pillar tree that grows so fast. Used for backgrounds, accent plantings, driveway borders, and sentinel trees by the gate. Plant 6 to 8 feet apart.

Many people keep them cut off at the top when they have reached a height of 8, 12, 14 feet—a height desired—which keeps them shorter, encourages more dense growth and makes them better screens.

3 to 4-ft. size: 2 for 78c; 5 for 1.49; 25 for 6.75, ppd.

4 to 5-ft. size: 2 for 88c; 5 for 1.98; 25 for 7.98, ppd.

10 LOMBARDIES

Special 2.49, ppd.

A2911X—Enough trees to plant 54 ft. of screen or background at less than the cost of a tankful of gasoline. Big 3 to 4 ft. size.

You Can Fall Plant These Henry Field ROSES

You can have better roses next spring if you plant them this fall. The fall planted roses do not make any top growth during the fall and winter, but they do get a running start next spring because they already are in the ground to take advantage of melting snow and early cold rains. They get a good root growth before hot weather hits.

IMPORTANT: We can not ship roses to you in the fall until they become dormant, which usually is late October. To fall plant, prune tops to about 18". Plant in the usual way and then mound dirt over all but about 3" of the tips of the stems. Remove this mound of dirt gently next spring when the buds start swelling.

PEONIES

PRICES of named variety Peonies: 89c each; 3 for 2.49, postpaid, except where noted.

The Peony Society rates peonies on quality and performance, using a score ranging from 1 to 10.

B1529—KARL ROSENFELD. Rated 8.8. Brilliant velvety crimson. Strong healthy growth. Blooms mid-season. Probably the most popular peony in the U.S.

B1514—FRANCES ORTEGAT. Rated 6.7. Large semi-rose type of dark amaranth-red. Glistening yellow stay-mens. Mid-season peony.

B1512—FELIX CROUSSE. Rated 8.4. Large globular, bomb type of bright red. Fine fragrance. Blooms freely and in clusters. Late mid-season variety.

B1513—FESTIVA MAXIMA. Rated 9.3. Most popular white. Immense flowers. Has flecks of red on center petals. Very early flowering and pleasingly fragrant. Originated in 1851 and still one of the very finest varieties in existence.

B1511—EDULIS SUPERBA. Rated 7.6. An early, big, deep pink. Strong, hardy grower. One of the best of all bloomers. Very fragrant.

B1518—GROVER CLEVELAND. Rated 8.2. Double, dark crimson. Blooms in clusters late in May. Vigorous and strong.

B1550—SOLANGE. Rated 9.7. The nearly perfect peony, having one of the highest ratings of all. Huge globes of rich, creamy white suffused lightly with buff and pink. Flowers so compact and full of petals that it is extraordinarily heavy. An exquisite variety. 1.25 each; 3 for 3.49, postpaid.

B1533—LONGFELLOW. Rated 9.0. Very brilliant red. Long, slender stems. A Minn. variety rated as one of the best. 98c each; 3 for 2.79, postpaid.

B1534—MARY BRAND. Rated 8.7. Very large, bright red flowers; often borne in clusters. Strong plant. Another Minn. variety. 98c each; 3 for 2.79, postpaid.

B1546—ROSE FRAGRANS. Immense bomb type. Deep pink. Very fragrant. Flowers after most others are gone.

MARTHA BULLOCK

*The Largest Flowered
of all Peonies*

B1535—Rated 9.1. Peony experts rate this as one of the three best of all peonies. Its blooms are almost as large as the ordinary-size dinner plate. Outer petals are a soft rose-pink; the full, fluffy center a pale shell-pink. Stems are stiff, strong, and easily hold the immense, fragrant blossoms upright where they can be seen. 1.25 each; 3 for 3.49, postpaid.

MEMORIAL DAY COLLECTION

4 Choice Peonies only 3.29 Postpaid

B3170X—This is always our most popular peony collection. You get four colors, each is an early blooming variety. Will give you an ideal selection of peonies for Memorial Day.

1 LONGFELLOW—One of the finest brilliant reds.

1 FESTIVA MAXIMA—large white.

1 EDULIS SUPERBA—deep pink outer petals, shading to light pink center.

1 KARL ROSENFELD—deep red.
FREE GIFT: 1 Regal, the most popular lily we grow.

IMPORTANT TIP: Plant the peony roots so that the little pink buds are exactly 2" below ground level—no more, no less. This is important. Then mound the ground up over the top 4 to 6 inches for the winter.

Hardy PHLOX

Fall is the best time for planting phlox. The roots get hooked into the soil and the plants are "rarin' to go" with the first breath of spring. Mulch well after (not before) ground freezes the first winter.

Phlox grow 18" to 36" high, depending upon soil. They like full sun, but do well in partial shade. The pastel pinks and blues look better in partial shade where the sun won't fade them. Phlox bloom in July and Aug., and are perfectly hardy. Keep the flowers cut so the plants won't go to seed; the seedlings usually come a muddy magenta color and, being vigorous, crowd out your good varieties.

Price on the 6 below is 39c each; 3 for 98c, postpaid;

B1640—MIES COPJYN. This is a Dutch Phlox of gorgeous silvery pink.

B1643—MARY LOUISE. Pure shiny white and a free bloomer.

B1666—STARLIGHT. A clear, rich violet with a sharply defined white star in center.

B1613—EVA FORESTER. Flowers of tremendous size. One of the best.

B1657—PROGRESS. Lavender blue with centers a shade lighter.

B1636—LEO SCHLAGETER. This is the largest and best crimson.

Price on the 6 below is 45c each; 3 for 1.15, postpaid;

B1652—PURPLE SWEETHEART. A new and good deep purple.

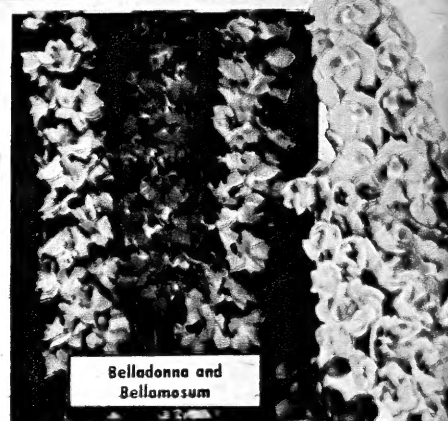

B1637—LILLIAN. Soft cameo pink. One of the very best pinks.

B1601—AFRICA. Large clusters of brightest scarlet flowers.

B1653—POLKA DOT. Another new and good one. Has huge flowers.

B1662—SALMON GLOW. The very best of all salmon Phlox.

B1605—BLUETTE. New. Large flowers never turn objectionable purple.

RAINBOW HYBRID

New LILIES

These are the big, brilliantly colored, famous new hybrids from the west coast. Not only are they gorgeous but absolutely hardy and very easy to grow. Colors run from palest straw yellow to deepest gold with lots of maroons and deep reds—and sometimes with all these colors in one blossom. Long, tall stems. The best part is we don't have to sell them for \$4 or \$5 apiece. These are our low prices:

B5026—59c each; 3 for 1.49; 6 for 2.25, postpaid.

Hardy CARNATIONS

They Bloom in Your Garden Like They Do in the Greenhouse

These are much like the fine, fragrant flowers you pay a fancy price for at a greenhouse. But **HARDY.** Ours are an improved strain with lusty flowers on stems often 20 inches tall. Enjoy carnations from early summer 'til frost.

B2037—Double Pure White.

B2036—Double Brilliant Scarlet.

B2038—Double Yellow.

B2035—Double Pink.

39c each; 3 for 98c, postpaid.

HARDY CARNATION BARGAIN

Collection B3262X

1 each of the above 4 beauties. All for 1.19, postpaid.

Hardy AMARYLLIS

or Magic Lily

B2088— In the spring, it throws out a cluster of leaves, which die down in early summer. Then stems pop out of the bare ground, grow 2 to 3 ft. high, each bearing several large lilac-pink lilies. Large flowering bulbs. 79c each; 3 for 2.19, postpaid.

HENRY FIELD'S HARDY LILIES

If you have never planted lilies in the fall, we urge you to do so. You probably know, of course, that the Madonna lily should be planted in the fall only, but you will find that all lilies are particularly well adapted to fall planting. Just plant them in the usual way but, if you live where the ground freezes, mulch with 2 inches of coarse straw after the ground is frozen, particularly the first winter.

We have assembled here for you what we sincerely believe are the world's best lilies. Some are the old familiar favorites but some are new ones that will amaze both you and your friends with their great beauty.

The NEW Mei Ling

B5017—These are unusually beautiful lilies—flowers are 4 to 6" across, pure white, with a bright golden star center. Wonderful cut flowers and, for corsages, as beautiful as orchids. Plant 6" deep. 1.98 each; 3 for 5.69, postpaid.

Yellow Trumpet

B5037—This lily is from the same seedling strain as the spike of bloom that won the Griffith Cup and the Sweepstakes Award at the 1950 National Lily Show; also the Award of Merit at the 1951 show. 2.00 each; 3 for 5.98, postpaid.

3 GREAT NEW LILIES

The lilies Mei Ling, Yellow Trumpet, and Aurelian Hybrids are from a group resulting from more than 15 years of patient crossing by Mr. Carleton Yerex in the Pacific Northwest. We have visited Mr. Yerex's place many times, and the lilies he has there are astounding. We first planted these here in Shenandoah in the fall of 1949. They are perfectly hardy and as easily grown as any other plant. Some grow stems higher than our head. They are far superior in color and beauty.

Mid-Century Hybrid Lily "Enchantment"

B5009—(Pat. #862). One of the most brilliant of all lilies. Hardy, disease resisting, easy to grow. Plants get 30" to 40" tall and create great masses of nasturtium-red upright cups. 98c ea.; 3 for 2.75, ppd.

New Lilies Collection

B3469X—Top size bulbs of the scarce, new hybrids. Only a few firms have them; you can't duplicate this price anywhere. 1 Yellow Trumpet, 1 Mei Ling and 2 Aurelian Hybrids—all 4 for 6.89, postpaid.

New Aurelian Hybrids

B5000—Wide, flaring trumpet lilies in beautiful combinations of colors, including gorgeous sunburst effects. Flowers are all 6" or more across and, as the plants grow older, form magnificent clumps. Plant 6" deep. 1.69 each; 3 for 4.98, postpaid.

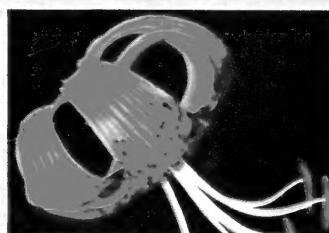

NEW! CENTIFOLIUM HYBRID LILY

These are magnificent pure white hybrids from the West Coast, the result of over 15 years of hybridizing. They are the result of crossing of a half dozen or more lilies and far outshine the Regal Lily in every respect. After several years of growth, they reach a height of 6 to 8 feet with great clusters of 50 or more blossoms crowning the top.

The flowers are shaped like broad flaring trumpets, as you can see in the picture, and are pure white inside. The reverse of the petals are often pink, emerald green, or brown, making some striking contrasts in color.

These lilies are exceedingly hardy, growing and blooming beautifully outdoors. Because of their deep root system, they stand severe drouth well. Plant 6 inches deep.

They are called Liliium Centifolium (Hundred Leaved) because of their abundant, rich green foliage. B5004—59c each; 3 for 1.49, ppd.

Henryi Lily

B5013—Grows up to nine feet tall with many large, brilliant orange blossoms. One of the best and strongest growing of all lilies, and still quite scarce. Plant 10 inches deep. 59c each; 3 for 1.49; 6 for 2.25, postpaid.

Bargain Lily Collection

B3464X—1 each of Henryi, Flame, Regal, Coral, Speciosum Rubrum and Centifolium—all 6 for only 2.69, postpaid.

Cascade Hybrid Madonna

B5016—Has tremendous vigor. Surpasses all other Madonnas in height of stalk and size of flowers. Has great resistance to lily disease botrytis. Plant not over 2 to 3 inches deep. 59c each; 3 for 1.49, postpaid.

Speciosum Rubrum The Beautiful "Show Lily"

B5030—Carmine red on a white ground with crimson spots. One of the most beautiful of all lilies, but very hardy; will grow just about anywhere. Plant 7 to 8 inches deep. 65c each; 3 for 1.79, postpaid.

FLAME LILY (Red Russian)

B5011—One of the easiest of all garden lilies to grow. Produces large clusters of good-sized, reddish-orange flowers. Plant 6 to 8" deep. 35c each; 3 for 80c; 5 for 1.29, postpaid.

Regal Lily Bargain

B3455X—A little smaller bulbs than those offered under B5027, but very good. 25 bulbs for only 3.39, postpaid.

Coral Lily

B5005 (Tenatolium) — Narrow-leaved, slender-growing plant with many deep scarlet, waxen, recurved flowers on each plant. One of the most brilliantly colored lilies. Plant 4 to 6 inches deep. 29c each; 3 for 75c; 5 for 1.19, postpaid.

Brilliant Lily Collection

B3456X—1 each of Coral, Flame, Speciosum Rubrum and Henryi—all for only 1.59, postpaid.

REGAL LILY

Always Covered with Blooms

B5027—The graceful lily with large pure white flowers, tinged lightly with lilac on the outside and yellow on the inside. One of the most widely grown, and most popular, of all lilies. Plant 8 to 10 inches deep. 35c each; 3 for 79c; 5 for 1.19, postpaid.
